

ASIAN SCIENTIFIC FORUM ASF

Hold By UMTAMD EVENTS SDN. BHD.
(1085353 H)

Asian Scientific Forum Conferences - Workshops - Advanced training courses - Joint international scientific projects

About us

Asian Scientific Forum is an academic project which has multiple activities hosted by "MUTAMD EVENTS SDN BHD 1085353-H" Malaysian registered organizations as Educational Services Company, and a group of International universities in order to achieve its vision, mission & objectives, and to improve, the academic qualifications of the participants through enabling them to have access to the best available opportunities, Especially in the expertise and scientific publishing.

Vision

Hence, this programme is designed to develop good strategies and plans to recover poor communication among scientific and educational institutions in Asia and the world. Such problem, which always stands as an obstacle to scholars and researchers including lecturers of renowned international universities to benefit from the outcomes of the scholarly programs in a professional way.

Mission

The organizers of this program believes that improving educational institutions is the best way for achieving community development through fostering an actual partnership between society and these institutions. In addition, the good planning for using the available resources in an optimal way would bring many benefits to continue fulfilling this mission at any time and in any place.

Objectives

The objectives of the programme are as follows:

To offer affordable and advanced services to researchers from all over the world to enrich the Asian experience through learning from the various offered activities in this programme.

To bring individuals and organizations together in order to achieve joint scientific projects that meet the various needs of the human society as well as to benefit from development scientific programs presented by senior scholars.

To coordinate corporate relationships for hosting innovative ideas and new inventions in addition to organizing academic publications' efforts.

To offer educational tourism programs, through taking advantage of the Asian climate as one of the most important touristic destinations for science, to entertain the experts and scholars during our scientific programs.

Our programs

Asian Scientific Forum is a semi-annual event held in different countries in the world, and its main programs are international conferences, training courses, academic exhibitions, and workshops on international standards, in addition to the agreements of cooperation and partnership for establishing academic institutions and scholarly projects among the host countries.

Confidentiality Policy

We adhere to the principles of protecting the researchers' data and their rights of intellectual property ownership, as well as enhancing the position of renowned scholars through our media programs.
